## 2. RESULTS OF OPERATIONS AND THE STATE OF COMPANY'S AFFAIRS

### History:

At Swiggy, our mission is to elevate the quality of life for urban consumers by offering unparalleled convenience. Innovation has been an integral part of our DNA which encourages us to ideate, experiment and iterate constantly with the focus on identifying and addressing convenience needs of our users at the core of our innovation approach.

Being among the first hyperlocal commerce platforms, Swiggy has successfully pioneered the industry in India, launching Food Delivery in 2014. Today, Swiggy offers its Food Delivery service in 653 cities across India serving ~13mn users<sup>1</sup> through a wide network of 196k restaurant partners<sup>2</sup>. Our sharp focus on innovation coupled with strong execution yielded yet another milestone - we became one of the very few global food delivery platforms to achieve EBITDA profitability in less than 9 years since inception.

We also pioneered Quick Commerce in India with the launch of Instamart in 2020, offering on-demand grocery and a growing array of household items delivered to our users in less than 10-15 minutes. We have successfully scaled our Quick Commerce offering to 27 cities delivering a wide array of ~17k SKUs through a dense network of 523 active dark stores.

We expanded beyond Food Delivery through our acquisition of Dineout in 2022, which enabled us to offer

dynamic experiences to our users across their entire food consumption journey. Dineout is fully integrated within Swiggy and is the leader in the dining out category in the country across 43 cities. The Out-of-home Consumption business was further expanded by the launch of SteppinOut, improving users' outdoor events experiences.

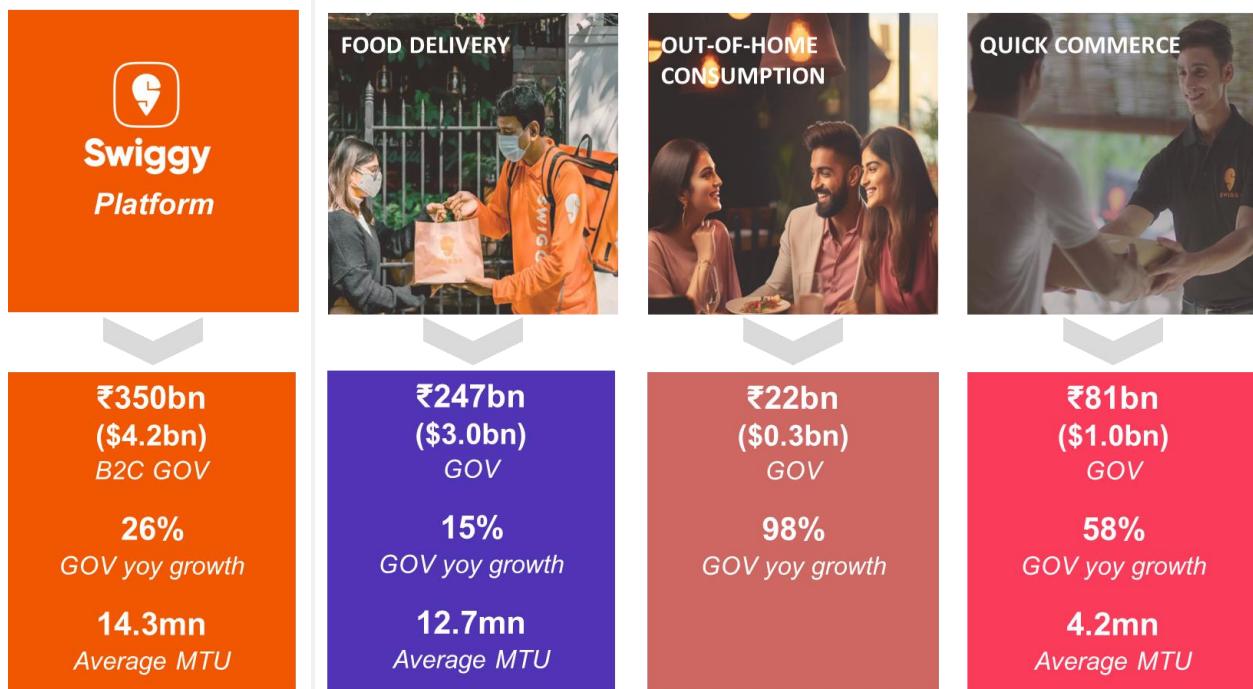

Due to our Pioneering status and innovation led approach, we are well-recognised as a leader in innovation in hyperlocal commerce and as a brand synonymous with the categories we are present in.

Our growth has continued with a strong focus on customer acquisition and retention; supply improvements and a high bar on experience with focused interventions on improving Selection Price and Convenience, and Policies for our customers as well as partners.

### **Our journey so far – Expanding portfolio of services:**

### Business overview:<sup>3</sup>

### FY24 review:

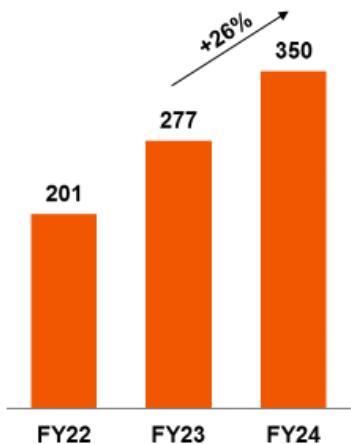

**Swiggy Overall:** The continued scale-up in the recent years is driven by an upwards momentum witnessed in demand and supply side factors with ~14mn users transacting on our platform at a high frequency of ~4.5x<sup>4</sup> supported by our wide delivery network of 390k+ delivery partners<sup>5</sup>. Profitability has sharply improved YoY, as the peak of investments in Instamart is behind us and the business continues to grow rapidly; while the relatively more mature Food delivery business is scaling-up profitably.

**Food Delivery:** Our Food Delivery segment has continued to grow with a  $\sim 1.1 \times^6$  expansion in user base and a  $\sim 1.1 \times$  expansion in no. of restaurant partners. The expansion in GOV is catalyzed by an increase in AOV due to increased premium offerings and larger basket sizes. Our total orders also grew by 17%<sup>6</sup> driven by increasing user base and ordering frequency.

<sup>6</sup> YoY Growth

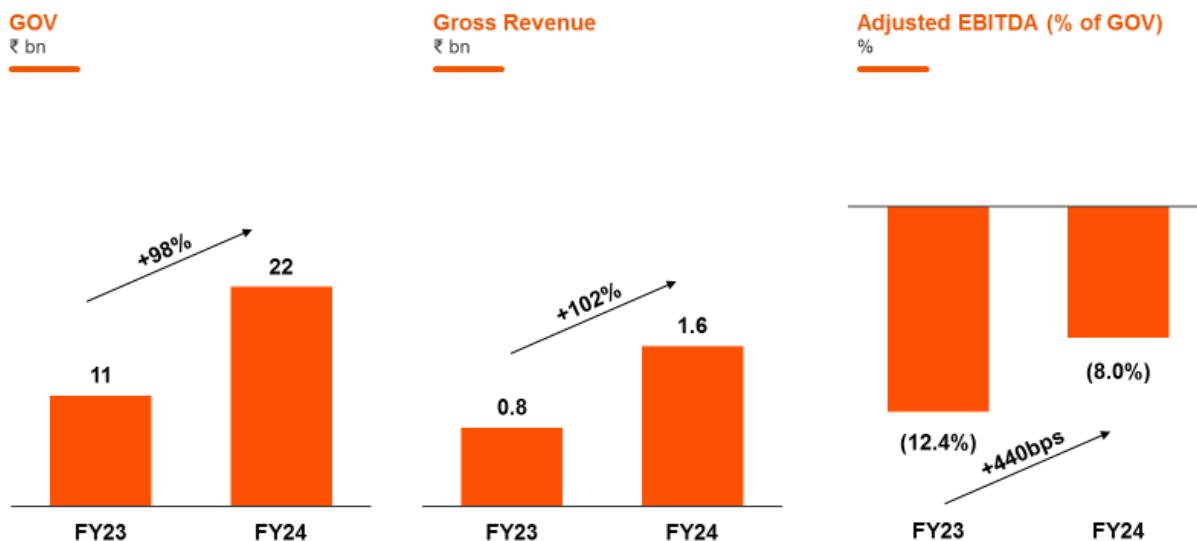

Continuous improvements in contribution margin across segments is driven by improving take rates and higher contribution of advertisement revenues, cost optimization and reduction of discounts.

**Quick Commerce:** We ramped our Quick Commerce business to almost a third of the Food Delivery business in just ~3 years. This rapid expansion was on the back of increased density of dark stores in existing cities and expansion to new cities.

**AOV**

Our significant improvement in profitability is driven by an increase in AOV led by a shift in category mix to premium offerings, increased advertisement revenues and reduced last mile expenses.

**Out-of-home Consumption:** We acquired Dineout in 2022 and integrated within the Swiggy app to benefit from the unified-app-play. The increase in top-line is driven by increase in commissions and advertising fees, user fees and incremental revenue from sale of tickets for various events on our platform. Our margins continue to improve rapidly, and the business is moving towards break-even.

### Growth and Innovation:

Our endeavor to address unsolved user convenience problems is underpinned by our innovation led culture as we continually incubate new service offerings to create more frequent and meaningful touchpoints for our users. We have actively invested in unlocking adjacent offerings on our platform, including new offerings, category additions, or targeted solutions for specific user segments.

We have created a structured framework for new offerings where we assess the product and business market fit in a capital-efficient manner for a finite time frame; and then scale, pivot or shutter them based on their progression. With these enablers in place, we have actively invested in unlocking adjacent offerings on our platform.

We have launched an array of new services which have now been integrated into our larger businesses post successful testing phase of their product market fit. For example, we piloted Swiggy Mall in 2023 offering

an expanded SKU base delivered through mega dark stores. This helped us bridge the gap between traditional e-commerce and quick commerce. With exponential improvements in quick commerce logistics, we have integrated Swiggy Mall into Instamart.

Similarly, we launched InsanelyGood, offering a curated selection of local brands and freshly prepared gourmet offerings. Post its successful pilot program we have relaunched the offering as “Handpicked” on Instamart.

We are continuously expanding our innovation pipeline with new offerings aimed at increasing our penetration and unlocking higher user transaction frequencies.

# Independent Auditor's Report

**To the Members of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

## Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the standalone financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) (the "Company") which comprise the standalone balance sheet as at 31 March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its loss and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

### Emphasis of Matter(s)

We draw attention to Note 45(b) of the financial statements, which highlights the change in number of weighted average equity shares considered for calculation of restated loss per share for the year ended on 31 March 2023.

Our opinion is not modified in respect of this matter.

### Management's and Board of Directors Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance

of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

- (iii) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.
- e. The Company has neither declared nor paid any dividend during the year.
- f. Based on our examination which included test checks, except for the instances mentioned below, the Company has used accounting softwares for maintaining its books of account which have a feature of recording audit trail (edit log) facility at the application level, and the same has been operating throughout the year for all relevant transactions recorded in the softwares:
  - In the absence of sufficient and appropriate reporting on compliance with audit trail requirements in the independent auditor's report of a service organization for the accounting software used for maintaining the books of account relating to general ledger, which are operated by a third party software service provider, we are unable to comment whether the audit trail feature was enabled and operated for all relevant transactions recorded in this software.
  - In the absence of sufficient and appropriate reporting on compliance with audit trail requirements in the independent auditor's report of a service organization for the accounting software used for maintaining the books of account relating to payroll records, which are operated by a third party software service provider, we are unable to comment whether the feature of audit trail (edit log) facility was enabled and operated at the database level to log any direct data changes.
  - The feature of audit trail (edit log) facility was not enabled at the database level to log any direct data changes for the accounting software used for maintaining the books of account relating to Revenue and delivery cost process.

Further, where audit trail (edit log) facility was enabled and operated for the respective accounting softwares, we did not come across any instance of the audit trail feature being tampered with.

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) The Company does not have any immovable property (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets during the year. The company has existing working capital limits sanctioned in the previous years in excess of five crore rupees on the basis of security of current assets. However as represented to us by the management, the Company is not required to file quarterly returns or statements with the Banks.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made investments, provided guarantee or security, granted loans and advances in the nature of loans, secured or unsecured to firms, limited liability partnership and other parties. **Annexure B to the Independent Auditor's Report on the standalone financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) for the year ended 31 March 2024**

**Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act**

**(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Opinion**

We have audited the internal financial controls with reference to financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

**Management's and Board of Directors' Responsibilities for Internal Financial Controls**

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Annexure B to the Independent Auditor's Report on the standalone financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) for the year ended 31 March 2024  
(Continued)**

**Meaning of Internal Financial Controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Swiggy Limited (*formerly known as Swiggy Private Limited, Bundl Technologies Private Limited*)**

### **Note 2 – Material Accounting Policies**

#### **1. Company overview**

Swiggy Limited ("the Company" or "Swiggy") was incorporated on December 26, 2013, as a private limited company, with its registered office situated at Bengaluru. The Company is principally engaged in facilitating the food orders and delivery through its own application platform, subscription services to enable logistics in the food e-commerce market. Effective August 2020 the Company is merely a technology platform provider where delivery partners can provide their delivery services to restaurant partners and consumers through the Swiggy platform.

Pursuant to a special resolution passed in the extraordinary general meeting of the shareholders of the Company held on February 19, 2024, post which the Company has converted from Private Limited Company to Public Limited Company, and consequently the name of the Company has changed to 'Swiggy Limited' vide new certificate of incorporation obtained from the Registrar of Companies approved on April 10, 2024.

The Company is also in the business of preparing food in its own kitchen and selling through the aforesaid platform and customer support services. The Company is also in the business of (i) dining out platform which enables customers to discover and make table reservation with respect to various restaurants, (ii) event organization and curation.

#### **2. Material accounting policies**

##### **2.1 Statement of compliance and basis of preparation**

The Standalone Financial Statements of the Company comprise of the Standalone Balance Sheet as at March 31, 2024, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity, the Standalone Statement of Cash Flows for the year ended March 31, 2024, Material Accounting Policies, Notes to the Standalone Financial Statements as at and for the year ended March 31, 2024 (together referred to as 'Standalone Financial Statements') has been prepared under Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, ('the Act') and other relevant provisions of the Act as amended from time to time.

The Standalone Financial Statements of the Company for the year ended March 31, 2024 were approved and authorised for issue in accordance with the resolution of the Board of Directors on June 28, 2024.

The Standalone Financial Statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest million, unless otherwise indicated.

The Standalone Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis, except for the following:

- certain financial assets and liabilities which are measured at fair value (refer accounting policy regarding financial instruments);
- defined benefit plans - measured at fair value;
- share-based payments and
- assets and liabilities arising in a business combination

The Material Accounting Policies used in preparation of the Standalone Financial Statements have been discussed in the respective notes.

##### **2.2 Business combination and goodwill**

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Company. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve.

Transaction costs that the Company incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees and other professional and consulting fees are expensed as incurred.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.2 Business combination and goodwill (Contd.)**

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment at each reporting period as presented, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in Standalone Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

**Pooling of interest method**

Ind AS 103, Business Combinations, prescribes significantly different accounting for business combinations which are not under common control and those under common control.

Business combinations involving entities or businesses under common control shall be accounted for using the pooling of interest method.

The pooling of interest method is considered to involve the following:

- i) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii) No adjustments are made to reflect fair values or recognize any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.
- iii) The identity of the reserves has been preserved and appear in the financial information of the transferee in the same form in which they appeared in the financial information of the transferor.

**2.3 Use of estimates, assumptions and judgements**

"The preparation of the Standalone Financial Statements in conformity with Ind AS requires the management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the Standalone Financial Statements and the reported amounts of revenues and expenses for the year reported. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected.

*< This space has been intentionally left blank >*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.3 Use of estimates, assumptions and judgements (Contd.)**

Key source of estimation uncertainty as at the date of Standalone Financial Statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of the following:

**a. Impairment of investments**

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model and involves use of significant estimates and assumptions including turnover, earning multiples, growth rates and net margins used to calculate projected future cash flows, risk adjusted discounted rate, future economic and market conditions.

**b. Fair value measurement of financial instruments**

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The policy has been further explained under note 2.13.

**c. Defined benefit plans**

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. These mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. The assumptions and models used for defined benefit plan are disclosed in note 31.

**d. Share-based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility, dividend yield, forfeiture rate and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 32.

**e. Useful lives of property, plant and equipment and intangible assets**

The Company reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**f. Taxes**

Significant judgments are involved in determining the provision for income taxes and tax credits including the amount expected to be paid or refunded. The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under note 2.21.

*< This space has been intentionally left blank >*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.3 Use of estimates, assumptions and judgements (Contd.)**

**g. Business combination**

In accounting for business combinations, judgment is required whether Company has control over the entity acquired. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- The ability to use its power over the investee to affect its returns.
- Exposure or rights to variable return from its involvement with the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- The Company's voting rights and potential voting rights
- The size of the Company's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.
- Right arising from other contractual arrangements.

Key assumptions in estimating the acquisition date fair values of the identifiable assets acquired and liabilities, identifying whether an identifiable intangible asset is to be recorded separately from goodwill.

**h. Leases**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate to the lease being evaluated or for a portfolio of leases with similar characteristics.

**i. Impairment of goodwill**

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired.

The impairment indicators, the estimation of expected future cash flows and the determination of the fair value of CGU (including Goodwill) require the Management to make significant judgements, estimates and assumptions concerning the identification and validation of impairment indicators, fair value of assets, revenue growth rates and operating margins used to calculate projected future cash flows, relevant risk-adjusted discount rate, future economic and market conditions, etc.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.3 Use of estimates, assumptions and judgements (Contd.)**

**j. Provisions and contingent liabilities**

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The Company uses significant judgement to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the Standalone Financial Statements.

**2.4 Current and Non-current classification**

The operating cycle is the time between the acquisition of assets/inputs for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle. The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- expected to be realised or intended to be sold or consumed in normal operating cycle
- held primarily for the purpose of trading
- expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when it is:

- expected to be settled in normal operating cycle.
- held primarily for the purpose of trading.
- due to be settled within twelve months after the reporting period, or
- not unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

**2.5 Revenue recognition**

The Company generates revenue mainly from providing online platform services to partner merchants (including restaurant merchant, grocery merchants and delivery partners), advertisement services, sale of food, subscriptions and other platform services.

Revenue is recognised when control of goods and services is transferred to the customer upon the satisfaction of performance obligation under the contract at a transaction price that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The transaction price of goods sold and services rendered is net of any taxes collected from customers and variable consideration on account of various discounts and schemes offered by the Company. The transaction price is an amount of consideration to which the entity expects to be entitled in exchange for transferring promised goods or services. Specific revenue recognition criteria for all key streams of revenue have been detailed in subsequent sections.

Where performance obligation is satisfied over time, the Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract.

*< This space has been intentionally left blank>*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.5 Revenue recognition (Contd.)**

**Identification of customer:**

The Company considers a party to be a customer if that party has contracted with the entity to obtain goods or services that are an output of the entity's ordinary activities in exchange for consideration. Based on the contractual obligations and the substance of the transactions, the Company considers the restaurant merchants, other merchants as customers. In select cases, transacting users and delivery partners are considered as customers when such users carry out transactions on the platform where the services are rendered by the Company, or the Company charges the service charge for use of technology platform from the users or delivery partners.

**Principle vs agent consideration:**

The fulfilment of the order is the responsibility of the partner merchants. Accordingly, the Gross order value is not recognised as revenue and only the order facilitation fee/ commission to which the Company is entitled is recognised as revenue.

The Company considers itself a principal in arrangements where it controls the goods or services provided.

In respect of transaction with delivery partners, the Company is merely a technology platform provider, connecting delivery partners with the restaurant partners and the consumers. Accordingly, the Gross delivery fees is not recognised as revenue. The Company may, from time to time, collect service charge from the delivery partners which is recognised as revenue.

**Revenue from platform services**

**a. Order facilitation fee:**

Company generates income from partner merchants for facilitating food/grocery ordering, dining out and delivery services through its technology platform.

Income generated from partner merchants, for use of its platform related services is recognised when the transaction is completed as per the terms of the arrangement with the respective partner merchants, being the point at which the Company has no remaining performance obligation.

The fulfilment of the order is the responsibility of partner merchants; accordingly, the gross order value is not recognised as revenue, only the order facilitation fee to which the Company is entitled is recognised as revenue.

**b. Delivery income:**

The Company earned delivery income by providing food/grocery delivery services. Such income was recorded by the Company on gross basis, as fulfilment of the food delivery order was the responsibility of the Company. Delivery fee was recognised as revenue at the point of order fulfilment.

Effective August 2020, the Company is merely a technology platform provider connecting delivery partners with the Restaurant partners and the consumers and earns revenue from delivery partners in the form of service charges for use of technology platform by them.

**c. Advertisement revenue:**

Advertisement revenue is generated from the sponsored listing fees paid by partner merchants and brands. Advertisement revenue is recognized when a consumer engages with the sponsored listing based on the number of clicks. There are certain contracts, where, in addition to the clicks, the Company sells online advertisements which are usually run over a contracted period of time. Revenue is presented on a gross basis in the amount billed to partner merchants as the Company controls the advertisement space.

**d. Onboarding fee:**

Partner merchants and delivery partners pay one-time non-refundable fees to join the Company's network. These are recognised on receipt or over a period of time in accordance with terms of agreement entered into with such relevant partner.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.5 Revenue recognition (Contd.)**

**e. Event income:**

Company generates income from ticketing revenue, Brand promotion fee and facilitation fee by organizing and curating events under different categories (music, comedy etc). Event Income is recognized on completion of the event. The Company considers itself a principal in this arrangement and accordingly the revenue is recognised at sale value minus variable considerations such as discounts, incentives and other such items offered to the customer.

**f. Subscription fee**

Revenue from the subscription contracts is recognized over the subscription period on a systematic basis in accordance with the terms of agreement entered with the customer.

**g. Service charge:**

Company generates revenue on account of service charges collected from users/delivery partners for use of technology platform to facilitate placement and delivery of orders. Service charge recognised by Company is net of discounts and incentives, if any, given/offered by the Company on transaction-to-transaction basis.

**h. Income from sale of food:**

Revenue from sale of food is recognised when the performance obligations are satisfied i.e. when control of promised goods are transferred to the customer i.e. when the food is delivered to the customer. The Company considers itself a principal in this arrangement and accordingly the revenue is recognised at sale value minus variable considerations such as discounts, incentives and other such items offered to the customer.

**i. Variable consideration such as discounts and incentives:**

The Company provides various types of incentives, discounts to users to promote the transactions on the platform. If the Company identifies the transacting users as one of their customers for the services, the incentives/ discounts offered to the transacting consumers are considered as payment to customers and recorded as reduction of revenue on a transaction-to-transaction basis. The amount of incentive/ discount in excess of the income earned from the transacting consumers is recorded as advertising and marketing expenses.

When incentives/discounts are provided to transacting users where the Company is not responsible for services, the transacting consumers are not considered customers of the Company, and such incentives/discounts are recorded as advertising and marketing expenses.

**j. Other income:**

Profit on sale of mutual funds and fair value impact on mark-to-market contracts are recognised on transaction completion and or on reporting date as applicable.

Interest income is recognised using the effective interest method or time-proportion method, based on rates implicit in the transaction.

Dividend income is recognized when the Company's right to receive Dividend is established.

**k. Contract balances:**

**Trade receivables**

A receivable is the company's right to consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section 2.13 b for initial recognition and subsequent measurement of financial assets.

**Contract assets**

Contract asset is Company's right to consideration in exchange for services that the Company has transferred to a customer where that right is conditioned on something other than the passage of time.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.5 Revenue recognition (Contd.)**

**Contract liabilities**

Contract liability is recognised where the company has an obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Contract liabilities are recognised as revenue when the Company satisfies the performance obligations under the contract (i.e., transfers the control of the related goods or services to the customer).

**2.6 Property, plant and equipment**

Plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the plant and equipment to its working condition for the intended use and cost of replacing part of the plant and equipment.

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in Standalone Statement of Profit or Loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

Gains or losses arising from derecognition of the assets are measured as the difference between the net disposal proceeds and the carrying amounts of the assets and are recognized in the Standalone Statement of Profit and Loss when the assets are derecognized.

**Capital work in progress**

Amount paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work-in-progress. The capital work- in-progress is carried at cost, comprising direct cost, related incidental expenses and attributable interest. No depreciation is charged on the capital work in progress until the asset is ready for the intended use.

**2.7 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination are measured at fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses (if any). While developing an intangible asset the expense incurred during research phase are charged to Standalone Statement of Profit and Loss in the period in which the expenditure is incurred while expenditure incurred during development phase are capitalized. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Standalone Statement of Profit and Loss when the asset is derecognised.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)****Note 2 – Material Accounting Policies****2.8 Depreciation and amortisation**

Depreciation on property, plant and equipment and amortisation on intangible assets with finite useful lives is calculated on a straight-line basis over the useful lives of the assets estimated by the management.

The Company has used the following useful lives to provide depreciation on plant and equipment and amortisation of intangible assets:

Asset category	Useful lives estimated by the management
Plant and equipment*	5
Office equipment	5
Computer equipment	3
Furniture and fixtures*	5
Leasehold improvements	Lower of lease term or useful life
Computer software	5
Non-compete asset	3
Customer contracts*	3
Technology*	10
Trademark*	5-15
Other intangible assets*	3-12

\* Based on an internal technical evaluation, management believes that the useful lives in the table above are realistic and reflect fair approximation of the period over which the assets are likely to be used. Hence, the useful lives for these assets is different from the useful lives as prescribed under part C of Schedule II of The Companies Act 2013.

The residual values, useful lives, and methods of depreciation of property, plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

Depreciation on additions/ disposals is provided on a pro-rata basis i.e., from/ up to the date on which asset is ready for use/ disposed of.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are adjusted prospectively.

**2.9 Impairment****Impairment of Financial assets**

The Company assesses at the end of each reporting period whether a financial asset or a Company of financial assets is impaired. Ind AS 109 ('Financial instruments') requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

< This space has been intentionally left blank>

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.9 Impairment (Contd.)**

**Credit-impaired financial assets**

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 180 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

**Presentation of allowance for ECL in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

**Impairment of non-financial assets**

Non-financial assets including property, plant and equipment and intangible assets with finite life and intangible assets under development are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Standalone Statement of Profit and Loss. For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Standalone Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in Standalone statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.10 Leases**

**Company as a lessee**

The Company's lease assets primarily consist of leases for buildings. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities representing obligations to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets whichever is earlier.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 2.10, Impairment of non-financial assets.

**ii) Lease liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date as the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in financial liabilities.

**iii) Short-term leases and leases of low-value assets**

The Company applies the short-term lease exemption (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

*< This space has been intentionally left blank>*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.10 Leases (Contd.)**

**Company as a lessor**

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the Standalone Statement of Profit or Loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

**2.11 Financial instruments**

Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognised when the Company becomes a party to the contract that gives rise to financial assets and liabilities. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

**a. Cash and cash equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**b. Financial assets**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

**Initial recognition and measurement**

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the Standalone Statement of Profit and Loss. However, trade receivables are measured at transaction price. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified and measured at:

- Amortised cost
- Fair value through other comprehensive income (FVOCI)
- Fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their recognition, except during the period the Company changes its business model for managing financial assets.

**Financial assets at amortised cost (Debt instrument)**

The financial asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.11 Financial Instruments (Contd.)**

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognised in the Standalone Statement of Profit and Loss. This category generally applies to trade and other receivables.

**Financial assets at FVOCI (Debt instrument)**

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- b) Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e., removed from the balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
  - (a) the Company has transferred substantially all the risks and rewards of the asset, or
  - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

**Financial assets at FVTPL (Debt instrument)**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Standalone Statement of Profit and Loss.

**c. Financial liabilities**

**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost (loans and borrowings, payables), as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, lease liabilities, loans and borrowings including bank overdrafts.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.11 Financial instruments (Contd.)**

**Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

**Gains or losses on liabilities held for trading are recognised in the profit or loss.**

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Standalone Statement of Profit or Loss. The Company has not designated any financial liability as at fair value through profit and loss.

**Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Standalone Statement of Profit and Loss.

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Standalone Statement of Profit or Loss.

**d. Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**2.12 Fair value measurement**

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the Standalone Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.13 Inventories**

Inventory is stated at the lower of cost and net realisable value. Cost of inventories comprise of all cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**2.14 Borrowing cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**2.15 Share issue expenses**

Incremental costs directly attributable to the issue of equity shares will be adjusted with securities premium.

**2.16 Foreign currency**

Transactions in foreign currencies are initially recorded by the respective entities of the Company at their respective functional currency spot rates, at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised as income or expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**2.17 Share based payments**

The Company measures compensation cost relating to employee stock options plans using the fair valuation method in accordance with Ind AS 102, Share-Based Payment. Compensation expense is amortized over the vesting period as per graded vesting method. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised, together with a corresponding increase in Share based payment reserve in other equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

When an award is cancelled by the Company or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Standalone Statement of Profit and Loss.

**2.18 Employee benefits**

Employee benefits consists of Salaries, wages, bonus, contribution to provident and other funds, share based payment expense and staff welfare expense.

**Defined contribution plans**

The Company's contributions to defined contribution plans (provident fund and ESI) are recognized in Standalone Statement of Profit and Loss when the employee renders related service.

**Defined benefit plans**

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is carried out based on projected unit credit method as at the balance sheet date. The Company recognizes the net obligation of a defined benefit plan in its Standalone Statement of Balance Sheet as liability. Actuarial gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. In accordance with Ind AS, re-measurement gains and losses on defined benefit plans recognised in OCI are not to be subsequently reclassified to the Standalone Statement of Profit and Loss.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.18 Employee benefits (Contd.)**

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Standalone Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

**Short-term employee benefits**

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. Compensated absences, which are expected to be utilised within the next 12 months, are treated as short-term employee benefits. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

**Long-term employee benefits**

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employees render the related services are treated as long-term employee benefits for measurement purpose. Such

long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end, less the fair value of the plan assets out of which the obligations are expected to be settled.

Actuarial gains/losses are immediately taken to the Standalone Statement of Profit and Loss and are not deferred.

The Company presents the entire compensated absences balance as a current liability in the Standalone Financial Statements, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

**2.19 Taxes on income**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Standalone Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in other equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

**Current income tax**

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the balance sheet date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity).

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred income tax**

Deferred income tax is recognised using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except

- when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.19 Taxes on income (Contd.)**

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Minimum alternate tax (MAT) paid in a year is charged to the Standalone Statement of Profit and Loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset, it is created by way of credit to the Standalone Statement of Profit and Loss and shown as part of deferred tax asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

**2.20 Provision and contingent liabilities**

A provision is recognized when Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of the obligation. If the effect of time value of money is material, provision is discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts, i.e., contracts where the expected unavoidable costs of meeting obligations under a contract exceed the economic benefits expected to be received, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Standalone Financial Statements.

Provision and contingent liabilities are reviewed at each Balance Sheet date.

**2.21 Earnings per share**

Basic earnings per share is computed by dividing the profit/(loss) after tax attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax as adjusted for dividend, interest (net of any attributable taxes) other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.21 Earnings per share (Contd.)**

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share or increase the net loss per share. Potential dilutive equity shares are deemed to be converted as at the beginning of the period unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

**2.22 Operating segment**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chief Executive Officer has been identified as the chief operating decision maker.

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance, the analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Segment revenue, segment expenses have been identified to the segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to any reporting segment have been allocated to respective segments based on the number orders, number of employees as reviewed by CODM.

**2.23 Statement of cash flow**

Cash flows from operating activities are reported using the indirect method set out in Indian Accounting Standard (Ind AS) 7 on Statement of Cash Flows, whereby profit/(loss) for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

For the purposes of Standalone Statement of Cash Flows, cash and cash equivalents comprise the total cash and cash equivalents as disclosed in note 9 adjusted for Bank overdraft repayable on demand.

**2.24 Events occurring after the balance sheet date.**

Based on the nature of the event, the Company identifies the events occurring between the balance sheet date and the date on which the Standalone financial statements are approved as 'Adjusting Event' and 'Non-adjusting event'. Adjustments to assets and liabilities are made for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the balance sheet date or because of statutory requirements or because of their special nature. For non-adjusting events, the Company may provide a disclosure in the Standalone financial statements considering the nature of the transaction.

**2.25 Exceptional items**

The Company considers exceptional items to be those which derive from events or transactions which are significant for separate disclosure by virtue of their size or incidence in order for the user to obtain a proper understanding of the Company's financial performance. These items include, but are not limited to, impairment charges, restructuring costs and profits and losses on disposal of subsidiaries, contingent consideration and other one off items which meet this definition. To provide a better understanding of the underlying results of the period, exceptional items are reported separately in the Standalone Statement of Profit and Loss.

**2.26 Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As of 31 March 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company that has not been applied.

**4 Goodwill and other intangible assets (Contd..)**

**Impairment of cash generating units**

The Company evaluates for impairment if cash generating units (CGUs) have identified impairment triggers. Impairment is recognised, when the carrying amount of CGUs including goodwill, exceeds the estimated recoverable amount of CGU. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generating unit (CGU), which benefit from the synergies of the acquisition. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. CGUs which have goodwill allocated to them are tested for impairment at least annually.

During the year ended March 31, 2024 and March 31, 2023 Goodwill acquired through business combinations has been allocated to the following CGU's:

	As at March 31, 2024	As at March 31, 2023
Out of home consumption (Refer note 4(i))	3,148.59	3,148.59
Private Brands (Refer note 4(ii))	109.17	109.17
<b>Total</b>	<b>3,257.76</b>	<b>3,257.76</b>
Less: Impaired (Refer note 4(ii) and 4(iii))	(109.17)	-
<b>Net</b>	<b>3,148.59</b>	<b>3,257.76</b>

(i) The recoverable amount of out of home consumption has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 20.70 % as at March 31, 2024. Cash flows beyond that five-year period have been extrapolated using a constant five per cent growth rate. This growth rate does not exceed the long-term average growth rate of the market.

(ii) During the year ended March 31, 2024, the Company had assessed the carrying value of the investment in the Private Brands considering its restructuring plan to suspend majority of operations except in partial locations in Bangalore with effect from March 2024. Management performed an assessment of the recoverable amount of the CGU based on the future operational plan and projected cashflows, based on the assessment goodwill and other intangible assets have been impaired fully. The recoverable amount of Private Brands has been determined based on the value in use. Value in use has been determined based on future operating plan, projected cash flows, growth rates, economic conditions and trends. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 20.10 % as at March 31, 2024. Cash flows beyond that five-year period have been extrapolated using a constant five per cent growth rate. This growth rate does not exceed the long-term average growth rate of the market.

(iii) The estimated recoverable amount of Out of home consumption CGU has exceeded its carrying amount and accordingly, no impairment is recognised.

(iv) An analysis of the sensitivity of the computation to a change in key assumptions (discount rates and long-term average growth rate), based on any reasonable change, did not identify any probable scenario in which the recoverable amount of the Out of home consumption CGU would decrease below its carrying amount the year ended March 31, 2024.

Further, disclosing their fair value fluctuation in profit or loss will not reflect the purpose of holding.

During the year ended March 31, 2023, the Company had recorded FVTOCI loss in the statement of profit and loss amounting to ₹ 95.86 Million on account of changes in the fair value of shares (Refer note 37). As at March 31, 2024, there is no change in the fair value of the aforesaid investment and accordingly, no gain/ loss has been recorded.

**5.5** During the year ended March 31, 2023, the Company has acquired 199,948 Series D CCPS shares and 10 equity shares in Roppen Transportation Private Limited ("Rapido") constituting 15.10% on a fully diluted basis for ₹ 9,505.00 Million. Rapido is engaged in providing services as on-demand technology-based transportation aggregator for two-wheeler and four-wheeler vehicles and operates through the mobile application 'Rapido'. The Company basis the shareholders agreement ('SHA') had the right to nominate and appoint 1 (one) Nominee Director in the board of Rapido subject to the terms contained in the SHA and the Articles of Association of Rapido. The Company on date of acquisition has issued an irrevocable waiver letter basis which it has waived its right to appoint a director on an irrevocable and unconditional basis till March 31, 2024 and subsequently, the Company has extended the waiver till 31 December 2025 ("Waiver"). Basis such waiver of rights, the Company concluded that it has no significant influence on Rapido and hence it is not an associate as per Ind AS 28 'Investments in Associates and Joint Ventures' and hence the Company has recognised the investments in Rapido as an investment at FVTOCI. Basis the fair valuation of the aforesaid investment, during the year, the Company has recorded FVTOCI gain in the Standalone Statement of Profit and Loss amounting to ₹ 931.68 Million (March 31, 2023: Nil) (Refer note 37).

**5.6** The Company, as part of its treasury operations, invested in commercial papers aggregating to ₹ 598.15 Million, with 'Infrastructure Leasing and Financial Services Limited and its subsidiary' (IL&FS Group), which were due for maturity on February 15, 2019 amounting to ₹ 368.73 Million and July 11, 2019 amounting to ₹ 229.42 Million, the aforesaid amount and interest there on has not been received when it was due. As a result of increased credit risk in relation to outstanding balance from IL&FS Group and the uncertainty prevailing on IL&FS Group due to the proceedings pending with the NCLT, Management had provided for full amount ₹ 598.15 Million for impairment in the value of commercial papers during the year ended March 31, 2019.

**(b) Terms/rights attached to equity shares**

The Company has only one class of equity shares having par value of ₹ 1.00 per share (March 31, 2023: ₹ 1.00). Each holder of equity shares is entitled to one vote per share. All equity shares rank equally with regard to dividends and share in the Company's residual assets. The company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders. Further, the equity share holders other than non-investors shall have priority over other equity share holders and will have the same rights as the preference shareholders.

**Notes to Standalone Financial Statements**

(All amount in ₹ Million, unless otherwise stated)

**29 Earnings per share**

Basic Earnings Per Share (EPS) and Diluted Earnings Per Share (EPS) amounts are calculated by dividing the loss for the year attributable to shareholders of the company by the weighted average number of equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted loss per share (EPS) computations:

	Year ended March 31, 2024	Year ended March 31, 2023
Face value of equity share (₹)	1.00	1.00
<b>Loss attributable to equity shareholders of the company (₹ in Million) - (A)</b>	<b>(18,880.32)</b>	<b>(37,575.63)</b>

**I. Quantitative sensitivity analysis for significant assumption is shown as below:**

	Year ended March 31, 2024		Year ended March 31, 2023	
	Decrease	Increase	Decrease	Increase
Effect of change in discount rate on DBO (-/+ 1%)	493.19	457.87	476.41	441.86
Impact on defined benefit obligation	3.85%	-3.59%	3.93%	-3.61%
Effect of change in salary growth rate on DBO (-/+ 1%)	458.15	492.53	442.49	475.98
Impact on defined benefit obligation	-3.53%	3.71%	-3.47%	3.84%
Effect of change in attrition assumption on DBO (-/+ 50%)	577.56	421.06	566.33	401.23
Impact on defined benefit obligation	21.61%	-11.34%	23.55%	-12.47%
Effect of change in mortality rate on DBO (-/+ 10%)	474.93	474.91	458.49	458.49
Impact on defined benefit obligation	0.00%	0.00%	0.02%	0.02%

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

**32 Employee Stock Option Plan (ESOP)**

The Company has two ESOP schemes namely Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015) and Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021).

The Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015) had been approved by the Board of Directors of the Company at their meeting held on May 26, 2015 and the shareholders of the Company by way of resolution passed at their Extra Ordinary General meeting held on June 14, 2015 for granting of aggregate 17,650 options which were amended from time to time basis vide resolutions passed at the General meetings and further increased to 1,06,201 options vide resolution passed at the Extraordinary General Meeting held till date. These options would vest generally over 4 years from the date of grant based on the vesting conditions as per letter of grant executed between the Company and the employee of the Company. Option vested can be exercised at the time of liquidity event as per the provisions outlined in the Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015). Each option when exercised would be converted into 1,401 fully paid-up equity share of ₹1.00 each of the Company but not exceeding 148,787,115 resultant equity shares.

The Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021) had been approved by the Board of Directors of the Company at their meeting held on August 6, 2021 and the shareholders of the Company by way of resolution passed at their Extra Ordinary General meeting held on August 10, 2021 for granting of aggregate 25,370 options which were amended from time to time basis vide resolutions passed at the General meetings and increased to 26,399 options.

Further, shareholders of the Company vide resolution passed at the Extraordinary General Meeting held on March 31, 2023 had approved for "no further grants under ESOP scheme 2021 and the transfer of unissued options being a total of 1,651 options lying in the ESOP scheme 2021 be transferred to ESOP scheme 2015 and any grants that return to the Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021) hereafter on account of lapse or surrender of options automatically be credited to the Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015)." Post approval from the shareholders unissued options lying in pool of ESOP 2021 were transferred to ESOP 2015 resulting into 24,748 options as on March 31, 2024. Each option when exercised would be converted into 1,401 fully paid-up equity share of INR 1 each of the Company but not exceeding 346,72,509 resultant equity shares.

During the year ended March 31, 2022, the Company had issued bonus shares in the ratio of 1400:1 to all the existing shareholders whose names appear in the register of members of the Company as on December 31, 2021. Hence each option granted under the above schemes would be eligible for 1,401 equity shares. Also for the options granted on or after the bonus issues exercise price has been fixed as ₹ 1,401.00 (fourteen hundred and one).

The following table summarises the movement in stock option granted and weighted average exercise price (WADP) during the year:

The expected life of stock options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

During the year ended March 31, 2022, the Company had launched Swiggy Liquidity Program ("SLP" or "Program") to provide liquidity to its eligible employees subject to certain conditions. As per the program the liquidity is being carried out in two rounds i.e. during July, 22 and July, 23. Liquidity price would be fair market value (FMV) at the time of liquidity, facilitated by the Company preferably through a secondary market sale or internal company financed liquidity event. The liquidity event was considered as a modification, considering appropriate assumptions and the fair value on the date of modification of ₹ 1,596.64 Million was recognized as financial liability with a corresponding adjustment to equity during the year ended March 31, 2022.

During the year ended March 31, 2023, the Company had facilitated the first round of liquidity during July, 2022 for the eligible employees, accordingly a cost of ₹ 641.38 Million for 3,363 options pertaining to first round of liquidity scheme and ₹ 1,200.68 Million for 7,299 options pertaining to second round of liquidity scheme has been recognised in the standalone financial statements. The Company has also facilitated the second round of liquidity in the quarter ended September 2023 for the eligible employees. Accordingly, an amount of ₹ 155.19 Million for 6,283 options on account of actualisation has been recognised as a credit to share based payment expense in the Standalone Statement of Profit and Loss (Refer note 24).

### 36 Capital management

For the purpose of Company's capital management, capital includes subscribed capital (equity and preference), securities premium and all other equity reserves attributable to the owners of the Company. The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern in order to finance the sustained growth in the business and to protect the shareholders value.

The Company is predominantly equity financed, which is evident from the capital structure below. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

#### (b) Valuation technique to determine fair value

37.1 The carrying value of these financial assets and liabilities in the financial statements are considered to be the same as their fair value, due to their short term nature.

37.2 The carrying value of these financial assets and liabilities in the financial statements are carried at amortised cost. The fair value of Investments in Non-Convertible Debentures(NCDs)/Bonds for the year ended March 31, 2024 is amounting to ₹ 9,260.54 Million (March 31, 2023: ₹ 9,853.10 Million).

37.3 These accounts are considered to be highly liquid / liquid and the carrying amount of these are considered to be the same as their fair value.

37.4 The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at balance sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

37.5 Lease liabilities are recognised based on the present value of the remaining lease payments.

37.6 The fair values of the unquoted investments in equity instruments have been estimated using one or more of the valuation techniques such as Discounted cash flow method ("DCF"), Comparable companies multiples method ("CCM"), Option pricing backsolve method ("OPM") and Comparable companies transactions multiples method ("CTM").

**37 Disclosures on financial instruments (Contd..)**

**(c) Fair value hierarchy**

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted price included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 : Inputs for the assets and liabilities that are not based on observable market data (unobservable inputs).

Fair value hierarchy of assets and liabilities carried at fair value on recurring basis is as follows:

Assets		Balance	Fair value measurement at the end of the reporting year *		
			Level 1	Level 2	Level 3
<b>As at March 31, 2024</b>					
Investments in mutual fund units		29,740.70	29,740.70	-	-

**(e) Significant Unobservable inputs used in Level 3 Fair Values**

	Valuation techniques	Significant unobservable inputs	Sensitivity of input to fair value measurement
<b>As at March 31, 2024</b>			
Investments in equity and preference instruments	Option pricing backsolve method ("OPM")	a) Enterprise value to revenue multiple (Ranging from 9.39x to 30.42x)  b) Volatility (50%)	A 5% increase in revenue multiple would have led to approximately ₹ 364.74 Million gain in Standalone financial statements.  A 5% decrease in revenue multiple would have led to approximately ₹ 364.00 Million loss in Standalone financial statements.  A 5% increase in volatility would have led to approximately ₹ 16.88 Million in Standalone financial statements.  A 5% decrease in volatility would have led to approximately ₹ 25.31 Million loss in Standalone financial statements.
As at March 31, 2023			
Investments in equity and preference instruments	Discounted cash flow method ("DCF"), Option pricing backsolve method (OPM)	a) Enterprise value to Revenue multiple (30.42x)  b) Volatility (50%)  c) Weighted Average cost of Capital ("WACC") (16.86%)	A 5% increase in revenue multiple would have led to approximately ₹ 6.87 Million gain in Standalone financial statements.  A 5% decrease in revenue multiple would have led to approximately ₹ 6.86 Million loss in Standalone financial statements.  A 5% increase in volatility would have led to approximately ₹ 0.37 Million gain in Standalone financial statements.  A 5% decrease in volatility would have led to approximately ₹ 0.62 Million loss in Standalone financial statements.  A 5% increase in WACC would have led to approximately ₹ 834.76 Million loss in Standalone financial statements.  A 5% decrease in WACC would have led to approximately ₹ 945.81 Million gain in Standalone financial statements.

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

### **38 Financial risk management**

The Company is exposed to various financial risks majorly Credit risk, Liquidity risk, Interest rate risk, Market risk and Equity price risk. The Company's senior management oversees the management of these risks with an objective to minimise the impact of these risks based on charters and (in)formal policies.

#### **a. Market risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

The Company's exposure to foreign currency exchange rate risk is very limited, as the Company doesn't have any significant foreign exchange transactions. Further, the Company's investments are primarily in fixed rate interest bearing investments. Accordingly, the Company is not significantly exposed to interest rate risk.

##### **i. Interest rate risk:**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company has no debt obligation during the current year. Therefore, there is no impact of possible change in floating rate on the entity's profitability.

#### **b. Credit risk**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and unbilled receivables) and from its treasury activities, including deposits with banks and financial institutions, investments in money market and other financial instruments. Credit risk has always been managed by the Company through credit approvals, established credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit in the normal course of business.

##### **i) Trade receivables**

Trade receivables consists of receivables from large number of unrelated restaurant partners and online payment partners. The Company's credit risk with regard to receivables from restaurant is reduced by it's business model which allows it to offset payables to restaurants against receivables. The Company operates with known online payment partners, these are short term and carried very low credit risk at the reporting date. The Company's trade receivables are non-interest bearing and generally carries credit period of 0 to 60 days. The Company does not have significant credit risk exposure to any single counterparty. The Company does not hold collateral as security.

As per Ind AS 109, the Company uses the expected credit loss model to assess the impairment loss. In determining the impairment allowance (allowance for doubtful debts), the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. Refer note 27 for the details on allowances for doubtful debts and advances and note 8 for the outstanding trade receivable balance which is subject to credit risk exposure of the Company.

Outstanding customer receivables are regularly and closely monitored basis the historical trend, the Company provides for any outstanding receivables beyond 180 days which are doubtful, the trade receivables on the respective reporting dates are net off the allowances which is sufficient to cover the entire life time loss of sales recognised including those that are currently less than 180 days outstanding, the total provision of ₹ 507.10 Million (March 31, 2023: ₹ 684.06 Million) consists of both these types of amounts.

##### **ii) Financial instruments and cash deposits**

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's approved investment policy. Investments of surplus funds are made primarily in liquid mutual fund units, fixed maturity plan securities, fixed deposits, quoted bonds, certificate of deposits, commercial papers etc. Investments of certificate of deposits, zero coupon bonds, commercial papers etc., are made only with approved counterparties and within credit limits. Counterparty credit ratings are reviewed by the Company's Audit Committee on periodic basis.

The Company's maximum exposure to credit risk for the components of the balance sheet is the carrying amounts as illustrated in note 5 and the liquidity table below.

#### **c. Liquidity risk**

Liquidity risk is the risk of being unable to meet the payment obligations resulting from financial liabilities, which may arise from unavailability of funds. The exposure to liquidity risk is closely monitored on company level using daily liquidity reports and regular cash forecast reports to ensure adequate distribution. The Company believes that cash and cash equivalents and current investments are sufficient to meet its current requirements, accordingly, no liquidity risk is perceived.

The breakup of cash and cash equivalents, deposits and current investments are as follows:

	As at March 31, 2024	As at March 31, 2023
Cash and cash equivalents	7,871.26	3,904.91
Other balances with banks	4,069.71	4,498.49

**40 Corporate Social Responsibility ('CSR') activity**

As per Section 135 of The Company's Act, 2013, a Corporate Social Responsibility ('CSR') committee has been formed by Company. The primary function of the committee is to assist the Board of Directors in formulating a CSR policy and review the implementation and progress of the same from time to time. The CSR policy intends to adopt the CSR activities mentioned in the Schedule VII of the Company's Act, 2013. The Company has incurred losses during the three immediately preceding financial years and accordingly, is not required to spend any amount for CSR purpose.

**41 Compliance with FDI regulation:**

The Company is not owned and is not controlled by resident Indian citizens. The Company has received foreign direct investment ("FDI") up to ~85% of its paid-up share capital and resident Indian citizens do not have the ability to appoint and remove the majority of the Company's board of directors. Accordingly, the Company is required to comply with regulations applicable to Foreign Direct Investments.

FDI is governed by (collectively, "Exchange Control Regulations") (a) the Foreign Exchange Management Act, 1999 (including the rules and regulations made thereunder) ("FEMA"), (b) Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (Notification No. S.O. 3732(E) dated October 17, 2019) as amended from time to time ("NDI Rules"), and (c) the consolidated FDI policy effective from August 28, 2017 and issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry ("DIPP"), as amended and restated from time to time including through various 'Press Notes' ("FDI Policy").

The Company has evaluated the guidance above and has obtained a legal opinion from the external legal counsel to conclude that the Company conducts its businesses under various categories namely 'sale of services through e-commerce' and 'sale of goods through e-commerce' amongst others. Accordingly, the conditions enumerated in Press Note No. 2 (2018 Series) dated December 26, 2018 ("PN2") read with Notification No. FEMA. 20(R) (6)/2019-RB dated January 31, 2019 and Press Note No. 3 (2016 Series) dated March 29, 2016 ("PN3") are not applicable to the Company whilst undertaking business under the 'sale of services through e-commerce' category. Accordingly, the Company has not determined any possible exposure on account of compliance with conditions enumerated under PN2 and PN3. In relation to the business activities relating to 'sale of goods through e-commerce', the Company duly complies with the conditions set forth under the FDI Policy including PN2.

**42 Acquisition of businesses**

**(a) Acquisition of Lynks Logistics Limited**

On August 29, 2023, the Company has acquired Lynks Logistics Limited ("Lynks") for a purchase consideration of ₹ 3,855.39 Million in a swap share agreement with the existing shareholders of Lynks, pursuant to which the Company has issued 10,721,700 fully paid up Series K1 CCCPS (face value ₹ 10.00) shares in exchange has acquired 2,235,937,371 fully paid up equity shares of face value of ₹ 1.00 each representing 100% of shareholding of Lynks. Subsequently, on December 25, 2023, Scootsy acquired Lynks from the Company in a common control arrangement for a cash consideration of ₹ 3,855.39 Million.

Lynks is engaged in the business of authorised distribution of fast-moving consumer goods to kirana stores, small retailers etc.

**42. Acquisition of businesses (Contd.)**

**(b) Acquisition of Dine out during the year ended March 31, 2023**

On July 1, 2022, the Company acquired restaurant technology and dining out platform 'Dineout' as a going concern on a slum exchange basis from Times Internet Limited for a purchase consideration of ₹ 6,445.64 Million in exchange of 18,011,135 fully paid up equity shares of the Company pursuant to the Business Transfer Agreement ('BTA') dated May 12, 2022.

Dineout is engaged in providing the following services: (i) discovery and table reservation with respect to various restaurants; (ii) event organization and curation; (iii) software and marketing solutions to various restaurants on a B2B basis. The Company acquired Dineout as it enlarges the restaurants relationships and enables customer to access dining and event services through the existing application platform.

From the date of acquisition till the year ended March 31, 2023, acquired business has contributed ₹ 775.20 Million of revenue and ₹ 1,754.56 Million to the loss from operations of the Company. If the combination had taken place at the beginning of the year ended March 31, 2023, revenue from operations would have been ₹ 46,802.99 Million and the loss for the year would have been ₹ 37,817.94 Million.

The goodwill of ₹ 3,148.59 Million comprises the value of synergies arising from the acquisition. None of the goodwill recognised is expected to be deductible for income tax purposes. Other intangible assets recognised are eligible for deduction for income tax purposes.

The Company incurred acquisition-related costs of ₹ 7.73 Million on legal fees and due diligence costs. These costs have been included in 'legal and professional fees' under 'other expenses'. (Refer note 27)

The purchase price has been allocated based on the Management's estimates and independent appraisal of fair value.

**The fair value of identifiable assets and liabilities of Dineout business as at the date of acquisition were as follows :**

	<b>Amount</b>
<b>Assets acquired</b>	
Property, plant and equipment	3.08
Trade receivables	206.21

# Independent Auditor's Report

To the Members of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)

## Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the consolidated financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and its associate, which comprise the consolidated balance sheet as at 31 March 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associate as at 31 March 2024, of its consolidated loss and other comprehensive loss, consolidated changes in equity and consolidated cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group, and its associate in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

### Emphasis of Matter

We draw attention to Note 44 (ii) of the financial statements, which highlights the change in number of weighted average equity shares considered for calculation of restated loss per share for the year ended 31 March 2023.

Our opinion is not modified in respect of this matter.

### Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian

#### **Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and the Board of Directors of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and the Board of Directors of its associate are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and the Board of Directors and the Board of Directors of its associate are responsible for overseeing the financial reporting process of each company.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However,

## Independent Auditor's Report (*Continued*)

future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entity included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Other Matter(s)**

The consolidated financial statements include the Group's share of net loss (and other comprehensive loss) of Rs 66.14 million for the year ended 31 March 2024, as considered in the consolidated financial statements, in respect of one associate, whose financial statements have not been audited by us or by other auditor. These unaudited financial statements have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this associate, and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid associate, is based solely on unaudited financial statements. In our opinion and according to the informations and explanations given to us by the Management, these financial statements are not material to the group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to financial statements certified by the Management of the Associate.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 A. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, except for the matters stated in the paragraph 2B(f) below on the reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 and the back-up of warehouse management software of a subsidiary, which form part of the 'books of account and other relevant books and papers in electronic mode' have not been maintained on the servers physically located in India on a daily basis.
  - c. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified

**Annexure B to the Independent Auditor's Report on the consolidated financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) for the year ended 31 March 2024**

**Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act**

**(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Opinion**

In conjunction with our audit of the consolidated financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies, as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

**Management's and Board of Directors' Responsibilities for Internal Financial Controls**

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

**Annexure B to the Independent Auditor's Report on the consolidated financial statements of Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited) for the year ended 31 March 2024  
(Continued)**

**Meaning of Internal Financial Controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Other Matter(s)**

The internal financial controls with reference to financial statements insofar as it relates to one associate, and included in these consolidated financial statements, have not been audited either by us or by other auditor. In our opinion and according to the information and explanations given to us by the Management, such unaudited associate is not material to the Holding Company.

Our opinion is not modified in respect of this matter.

**2. Material Accounting Policies****2.1 Statement of compliance and basis of preparation**

The Consolidated Financial Statements of the Group and its associate comprise of the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows for the year ended March 31, 2024, Material Accounting Policies, Notes to the Consolidated Financial Statements as at and for the year ended March 31, 2024 (together referred to as 'Consolidated Financial Statements') has been prepared under Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, ('the Act') and other relevant provisions of the Act as amended from time to time except for presentation and disclosure requirements relevant for the comparative year(s) has not been provided.

The Consolidated Financial Statements of the Group for the year ended March 31, 2024 were approved for issue in accordance with the resolution of the Board of Directors on June 28, 2024.

These Consolidated Financial Statements are presented in Indian Rupees (INR), which is also the Group's functional currency. All amounts have been rounded-off to the nearest million, unless otherwise indicated.

*< This space has been intentionally left blank>*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.1 Statement of compliance and basis of preparation (Contd.)**

These Consolidated Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis, except for the following:

- certain financial assets and liabilities which are measured at fair value (refer accounting policy regarding financial instruments);
- defined benefit plans;
- share-based payments and
- assets and liabilities arising in a business combination

The Material Accounting Policies used in preparation of these Consolidated Financial Statements have been discussed in the respective notes.

**2.2 Basis of consolidation**

The Group consolidates the companies which it owns or controls. The Consolidated Financial Statements comprises the financial statements of the Company, its subsidiaries and share of profit and loss of associate, as detailed in note 1 above.

Control exists when the parent has the power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affects the entity's returns. Subsidiary is consolidated from the date of control commences until the date control ceases. Associate entity has been considered in the Consolidated Financial Statements as per equity method of consolidation as per Ind AS 28 (refer note 2.12 for details on associate).

The Consolidated Financial Statements of the Group Companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealised gain/ loss from such transactions are eliminated upon consolidation. These Consolidated Financial Statements are prepared by applying uniform accounting policies in use at the Group.

The Consolidated Financial Statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended March 31, 2024 as the case may be.

**2.3 Business combination and goodwill**

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Purchase consideration paid in excess of the fair value of net assets acquired is recognized as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognized as capital reserve.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees and other professional and consulting fees are expensed as incurred.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.3 Business combination and goodwill (Contd.)**

A cash generating unit to which goodwill has been allocated is tested for impairment at each reporting period as presented, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in Consolidated Statement of Profit and Loss. An impairment loss recognized for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

**Pooling of interest method**

Ind AS 103, Business Combinations, prescribes significantly different accounting for business combinations which are not under common control and those under common control.

Business combinations involving entities or businesses under common control shall be accounted for using the pooling of interest method.

The pooling of interest method is considered to involve the following:

- i) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii) No adjustments are made to reflect fair values or recognize any new assets or liabilities. The only adjustments that are made are to harmonize accounting policies.
- iii) The identity of the reserves has been preserved and appear in the financial information of the transferee in the same form in which they appeared in the financial information of the transferor.

**2.4 Use of estimates, assumptions and judgements**

"The preparation of the Consolidated Financial Statements in conformity with Ind AS requires the management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses for the year reported. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised, and future periods are affected.

Key source of estimation uncertainty as at the date of Consolidated Financial Statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of the following:

**a. Impairment of investments**

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model and involves use of significant estimates and assumptions including turnover, earning multiples, growth rates and net margins used to calculate projected future cash flows, risk adjusted discounted rate, future economic and market conditions.

**b. Fair value measurement of financial instruments**

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The policy has been further explained under note 2.13.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.4 Use of estimates, assumptions and judgements (Contd.)**

**c. Defined benefit plans**

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. These mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. The assumptions and models used for defined benefit plan are disclosed in note 32.

**d. Share-based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility, dividend yield, forfeiture rate and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 33.

**e. Useful lives of property, plant and equipment and intangible assets**

The Group reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

**f. Taxes**

Significant judgments are involved in determining the provision for income taxes and tax credits including the amount expected to be paid or refunded. The Group reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under note 2.21.

**g. Business combination**

In accounting for business combinations, judgment is required whether Group has control over the entity acquired. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- The ability to use its power over the investee to affect its returns.
- Exposure or rights to variable return from its involvement with the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.
- Right arising from other contractual arrangements.

*< This space has been intentionally left blank >*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.4 Use of estimates, assumptions and judgements (Contd.)**

Key assumptions in estimating the acquisition date fair values of the identifiable assets acquired and liabilities, identifying whether an identifiable intangible asset is to be recorded separately from goodwill.

**h. Leases**

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate to the lease being evaluated or for a portfolio of leases with similar characteristics.

**i. Impairment of goodwill**

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired.

The impairment indicators, the estimation of expected future cash flows and the determination of the fair value of CGU (including Goodwill) require the Management to make significant judgements, estimates and assumptions concerning the identification and validation of impairment indicators, fair value of assets, revenue growth rates and operating margins used to calculate projected future cash flows, relevant risk-adjusted discount rate, future economic and market conditions, etc.

**j. Provisions and contingent liabilities**

The Group estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The Group uses significant judgement to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognized nor disclosed in the Consolidated Financial Statements.

**2.5 Current and Non-current classification**

The operating cycle is the time between the acquisition of assets/inputs for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle. The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- expected to be realised or intended to be sold or consumed in normal operating cycle
- held primarily for the purpose of trading
- expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.5 Current and Non-current classification (Contd.)**

A liability is current when it is:

- expected to be settled in normal operating cycle.
- held primarily for the purpose of trading.
- due to be settled within twelve months after the reporting period, or
- not a unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

**2.6 Revenue recognition**

The Group generates revenue mainly from providing online platform services to partner merchants (including restaurant merchant, grocery merchants and delivery partners), advertisement services, sale of food and traded goods, supply chain services, subscriptions and other platform services.

Revenue is recognized when control of goods and services is transferred to the customer upon the satisfaction of performance obligation under the contract at a transaction price that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The transaction price of goods sold and services rendered is net of any taxes collected from customers and variable consideration on account of various discounts and schemes offered by the Group. The transaction price is an amount of consideration to which the entity expects to be entitled in exchange for transferring promised goods or services. Specific revenue recognition criteria for all key streams of revenue have been detailed in subsequent sections.

Where performance obligation is satisfied over time, the Group recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Group recognizes revenue when customer obtains control of promised goods and services in the contract.

**Identification of customer:**

The Group considers a party to be a customer if that party has contracted with the entity to obtain goods or services that are an output of the entity's ordinary activities in exchange for consideration. Based on the contractual obligations and the substance of the transactions, the Group considers the restaurant merchants, other merchants as customers. In select cases, transacting users and delivery partners are considered as customers when such users carry out transactions on the platform where the services are rendered by the Group, or the Group charges the service charge for use of technology platform from the users or delivery partners.

**Principle vs agent consideration:**

The fulfilment of the order is the responsibility of the partner merchants, accordingly, the Gross order value is not recognized as revenue, only the order facilitation fee/ commission to which the Group is entitled is recognized as revenue.

The Group considers itself as a principal in an arrangement when it controls the goods or service provided.

In respect of transaction with delivery partners, the Group is merely a technology platform provider, connecting delivery partners with the restaurant partners and the consumers. Accordingly, the Gross delivery fees is not recognized as revenue. The Group may, from time to time, collect service charge from the delivery partners which is recognized as revenue.

*< This space has been intentionally left blank >*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.6 Revenue recognition (Contd.)**

**Revenue from platform services**

**a. Order facilitation fee:**

Group generates income from partner merchants for facilitating food/grocery ordering, dining out and delivery services through its technology platform.

Income generated from partner merchants, for use of its platform related services is recognized when the transaction is completed as per the terms of the arrangement with the respective partner merchants, being the point at which the Group has no remaining performance obligation.

The fulfilment of the order is the responsibility of partner merchants; accordingly, the gross order value is not recognized as revenue, only the order facilitation fee to which the Group is entitled is recognized as revenue.

**b. Delivery income:**

The Group earned delivery income by providing food/grocery delivery services. Such income was recorded by the Group on gross basis, as fulfilment of the food delivery order was the responsibility of the Group. Delivery fee was recognized as revenue at the point of order fulfilment.

Effective August 2020, the Group is merely a technology platform provider connecting delivery partners with the Restaurant partners and the users and earns revenue from delivery partners in the form of service charges for use of technology platform by them.

**c. Advertisement revenue:**

Advertisement revenue is generated from the sponsored listing fees paid by partner merchants and brands. Advertisement revenue is recognized when a consumer engages with the sponsored listing based on the number of clicks. There are certain contracts, where, in addition to the clicks, the Group sells online advertisements which are usually run over a contracted period of time. Revenue is presented on a gross basis in the amount billed to partner merchants as the Group controls the advertisement space.

**d. Onboarding fee:**

Partner merchants and delivery partners pay one-time non-refundable fees to join the Group's network. These are recognized on receipt or over a period of time in accordance with terms of agreement entered into with such relevant partner.

**e. Event income:**

Group generates income from ticketing revenue, Brand promotion fee and facilitation fee by organizing and curating events under different categories (music, comedy etc). Event Income is recognized on completion of the event. The Company considers itself a principal in this arrangement and accordingly the revenue is recognised at sale value minus variable considerations such as discounts, incentives and other such items offered to the customer.

**f. Subscription fee**

Revenue from the subscription contracts is recognized over the subscription period on a systematic basis in accordance with the terms of agreement entered with the customer.

**g. Service charge:**

Group generates revenue on account of service charges collected from users/delivery partners for use of technology platform to facilitate placement and delivery of orders. Service charge recognized by group is net of discounts and incentives, if any, given/offered by the group on transaction-to-transaction basis.

**h. Income from sale of food and traded goods:**

Revenue from sale of food and traded goods is recognized when the performance obligations are satisfied i.e., when control of promised goods are transferred to the customer i.e., when the food or traded goods are delivered to the customer. The Group considers itself a principal in this arrangement and accordingly the revenue is recognized at sale value minus variable considerations such as discounts, incentives and other such items offered to the customer.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.6 Revenue recognition (Contd.)**

**i. Supply chain services:**

Revenue from rendering of supply chain services is recognized over the time when control on the services is transferred to the customer i.e., when the customer has the ability to control the use of the transferred services provided and generally derive their remaining benefits.

**j. Variable consideration such as discounts and incentives:**

The Group provides various types of incentives, discounts to users to promote the transactions on the platform. If the Group identifies the transacting users as one of their customers for the services, the incentives/ discounts offered to the transacting consumers are considered as payment to customers and recorded as reduction of revenue on a transaction-by-transaction basis. The amount of incentive/ discount in excess of the income earned from the transacting consumers is recorded as advertising and marketing expenses.

When incentives/discounts are provided to transacting users where the Group is not responsible for services, the transacting consumers are not considered customers of the Group, and such incentives/discounts are recorded as advertising and marketing expenses.

**k. Other income:**

Profit on sale of mutual funds and fair value impact on mark-to-market contracts are recognized on transaction completion and or on reporting date as applicable.

Interest income is recognized using the effective interest method or time-proportion method, based on rates implicit in the transaction.

Dividend income is recognized when the Group's right to receive Dividend is established.

**l. Contract balances:**

**Trade receivables**

A receivable is group's right to consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section 2.13 b for initial recognition and subsequent measurement of financial assets.

**Contract assets**

Contract assets is group right to consideration in exchange for services that the group has transferred to a customer where that right is conditioned on something other than the passage of time.

**Contract liabilities**

Contract liability is recognized where the group has an obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Contract liabilities are recognized as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer)

**Other receivables**

Brand claim receivables are recognized when it is probable that economic benefits will flow to the Group, and the amount of the claim can be reliably measured. The Group will assess the likelihood of receiving the brand claim and recognize it as a receivable in the financial statements when the criteria are met. The brand claim receivables are initially measured at their fair value, which is typically the amount the Group expects to receive in cash or cash equivalents. Subsequent measurement will be done to identify changes in the expected cash flows associated with the brand claim receivables, if any.

Note 2 – Material Accounting Policies

**2.7 Property, plant and equipment**

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the plant and equipment to its working condition for the intended use and cost of replacing part of the plant and equipment.

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in Consolidated Statement of Profit or Loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

Gains or losses arising from derecognition of the assets are measured as the difference between the net disposal proceeds and the carrying amounts of the assets and are recognized in the Consolidated Statement of Profit and Loss when the assets are derecognized.

**Capital work in progress**

Amount paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work-in-progress. The capital work- in-progress is carried at cost, comprising direct cost, related incidental expenses and attributable interest. No depreciation is charged on the capital work in progress until the asset is ready for the intended use.

**2.8 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination are measured at fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses (if any). While developing an intangible asset the expense incurred during research phase are charged to Consolidated Statement of Profit and Loss in the period in which the expenditure is incurred while expenditure incurred during development phase are capitalized. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Consolidated Statement of Profit and Loss when the asset is derecognized.

< This space has been intentionally left blank>

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)****Note 2 – Material Accounting Policies****2.9 Depreciation and amortisation**

Depreciation on property, plant and equipment and amortisation on intangible assets with finite useful lives is calculated on a straight-line basis over the useful lives of the assets estimated by the management.

The Group has used the following useful lives to provide depreciation on plant and equipment and amortisation of intangible assets:

<b>Asset category</b>	<b>Useful lives estimated by the management</b>
Plant and equipment*	5
Office equipment	5
Computer equipment	3
Furniture and fixtures*	5
Leasehold improvements	Lower of lease term or useful life
Computer software	5
Non-compete asset	3
Customer contracts*	3
Technology*	10
Trademark*	5-15
Other intangible assets*	3-12

\* Based on an internal technical evaluation, management believes that the useful lives in the table above are realistic and reflect fair approximation of the period over which the assets are likely to be used. Hence, the useful lives for these assets is different from the useful lives as prescribed under part C of Schedule II of The Companies Act 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

Depreciation on additions/ disposals is provided on a pro-rata basis i.e., from/ upto the date on which asset is ready for use/ disposed off.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are adjusted prospectively.

**2.10 Impairment****Impairment of Financial assets**

The Group assesses at the end of each reporting period whether a financial asset or a group of financial assets is impaired. Ind AS 109 ('Financial instruments') requires expected credit losses to be measured through a loss allowance. The Group recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

< This space has been intentionally left blank>

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.10 Impairment (Contd.)**

**Credit-impaired financial assets**

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 180 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or • the disappearance of an active market for a security because of financial difficulties.

**Presentation of allowance for ECL in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

**Impairment of non-financial assets**

Non-financial assets including property, plant and equipment and intangible assets with finite life and intangible assets under development are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the Consolidated Statement of Profit and Loss. For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Consolidated Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in Consolidated statement of Profit and Loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

**Note 2 – Material Accounting Policies**

**2.11 Leases**

**Group as a lessee**

The Group's lease assets primarily consist of leases for buildings. The Group assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities representing obligations to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right-of-use assets**

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets whichever is earlier.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 2.10, Impairment of non-financial assets.

**ii) Lease liabilities**

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date as the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Group's lease liabilities are included in financial liabilities.

**iii) Short-term leases and leases of low-value assets**

The Group applies the short-term lease exemption (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

*< This space has been intentionally left blank>*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.11 Leases (Contd.)**

**Group as a lessor**

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the Consolidated Statement of Profit or Loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

**2.12 Investment in associate**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Group's investments in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The Consolidated Statement of Profit and Loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes, when applicable, in the Consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate is eliminated to the extent of the interest in the associate.

The financial statements of the associate is prepared for the same reporting period has the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Consolidated Statement of Profit and Loss."

**2.13 Financial instruments**

Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognized when the Group becomes a party to the contract that gives rise to financial assets and liabilities. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

**a. Cash and cash equivalents**

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**b. Financial assets**

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument.

*< This space has been intentionally left blank>*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.13 Financial instruments (Contd.)**

**Initial recognition and measurement**

On initial recognition, a financial asset is recognized at fair value. In case of financial assets which are recognized at fair value through profit and loss (FVTPL), its transaction cost is recognized in the Consolidated Statement of Profit and Loss. However, trade receivables are measured at transaction price. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified and measured at:

- Amortised cost
- Fair value through other comprehensive income (FVOCI)
- Fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their recognition, except during the period the group changes its business model for managing financial assets.

**Financial assets at amortised cost (Debt instrument)**

The financial asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Consolidated Statement of Profit and Loss. The losses arising from impairment are recognized in the Consolidated Statement of Profit and Loss. This category generally applies to trade and other receivables.

**Financial assets at FVOCI (Debt instrument)**

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- b) Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognized (i.e., removed from the balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
  - (a) the Group has transferred substantially all the risks and rewards of the asset, or
  - (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.13 Financial instruments (Contd.)**

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

**Financial assets at FVTPL (Debt instrument)**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Consolidated Statement of Profit and Loss.

**c. Financial liabilities**

**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost (loans and borrowings, payables), as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, lease liabilities, loans and borrowings including bank overdrafts.

**Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

**Gains or losses on liabilities held for trading are recognized in the profit or loss.**

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to Profit and Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Consolidated Statement of Profit or Loss. The Group has not designated any financial liability as at fair value through profit and loss.

**Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Consolidated Statement of Profit and Loss.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.13 Financial instruments (Contd.)**

**Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Consolidated Statement of Profit or Loss.

**d. Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**2.14 Fair value measurement**

In determining the fair value of its financial instruments, the Group uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the Consolidated Financial Statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**2.15 Inventories**

Inventory is stated at the lower of cost and net realisable value. Cost of inventories comprise of all cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**2.16 Borrowing cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**2.17 Share issue expenses**

Incremental costs directly attributable to the issue of equity shares will be adjusted with securities premium.

*< This space has been intentionally left blank >*

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**  
Note 2 – Material Accounting Policies

**2.18 Foreign currency**

Transactions in foreign currencies are initially recorded by the respective entities of the Group at their respective functional currency spot rates, at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized as income or expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**2.19 Share based payments**

The Group measures compensation cost relating to employee stock options plans using the fair valuation method in accordance with Ind AS 102, Share-Based Payment. Compensation expense is amortized over the vesting period as per graded vesting method. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognized, together with a corresponding increase in Share based payment reserve in other equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

When an award is cancelled by the Group or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Consolidated Statement of Profit and Loss.

**2.20 Employee benefits**

Employee benefits consists of Salaries, wages, bonus, contribution to provident and other funds, share bases payment expense and staff welfare expense.

**Defined contribution plans**

The Group's contributions to defined contribution plans (provident fund and ESI) are recognized in Consolidated Statement of Profit and Loss when the employee renders related service.

**Defined benefit plans**

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is carried out based on projected unit credit method as at the balance sheet date. The Group recognizes the net obligation of a defined benefit plan in its Consolidated Statement of Balance Sheet as liability. Actuarial gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. In accordance with Ind AS, re-measurement gains and losses on defined benefit plans recognized in OCI are not to be subsequently reclassified to the Consolidated Statement of Profit and Loss.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation as an expense in the Consolidated Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

**Short-term employee benefits**

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. Compensated absences, which are expected to be utilised within the next 12 months, are treated as short-term employee benefits. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

**Swiggy Limited (formerly known as Swiggy Private Limited, Bundl Technologies Private Limited)**

**Note 2 – Material Accounting Policies**

**2.20 Employee benefits (Contd.)**

**Long-term employee benefits**

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employees render the related services are treated as long-term employee benefits for measurement purpose. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end, less the fair value of the plan assets out of which the obligations are expected to be settled.

Actuarial gains/losses are immediately taken to the Consolidated Statement of Profit and Loss and are not deferred.

The Group presents the entire compensated absences balance as a current liability in the Consolidated Financial Statements, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

**2.21 Taxes on income**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the Consolidated Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in other equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

**Current income tax**

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the balance sheet date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in OCI or in equity).

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred income tax**

Deferred income tax is recognized using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except

- when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Note 2 – Material Accounting Policies

**2.21 Taxes on income (Contd.)**

Minimum alternate tax (MAT) paid in a year is charged to the Consolidated Statement of Profit and Loss as current tax for the year. The deferred tax asset is recognized for MAT credit available only to the extent that it is probable that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset, it is created by way of credit to the Consolidated Statement of Profit and Loss and shown as part of deferred tax asset. The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

**2.22 Provision and contingent liabilities**

A provision is recognized when Group has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of the obligation. If the effect of time value of money is material, provision is discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset; if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts, i.e., contracts where the expected unavoidable costs of meeting obligations under a contract exceed the economic benefits expected to be received, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the Consolidated Financial Statements.

Provision and contingent liabilities are reviewed at each Balance Sheet date.

**2.23 Earnings per share**

Basic earnings per share is computed by dividing the profit/(loss) after tax attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax as adjusted for dividend, interest (net of any attributable taxes) other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share or increase the net loss per share. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

**Note 2 – Material Accounting Policies**

**2.24 Operating segment**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chief Executive Officer has been identified as the chief operating decision maker.

The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance, the analysis of geographical segments is based on the areas in which major operating divisions of the Group operate.

Segment revenue, segment expenses have been identified to the segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to any reporting segment have been allocated to respective segments based on the number orders, number of employees as reviewed by CODM.

**2.25 Statement of cash flow**

Cash flows from operating activities are reported using the indirect method set out in Indian Accounting Standard (Ind AS) 7 on Statement of Cash Flows, whereby profit/(loss) for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

For the purposes of Consolidated Statement of Cash Flows, cash and cash equivalents comprise the total cash and cash equivalents as disclosed in note 9 adjusted for Bank overdraft repayable on demand.

**2.26 Events occurring after the balance sheet date.**

Based on the nature of the event, the group identifies the events occurring between the balance sheet date and the date on which the Consolidated financial statements are approved as 'Adjusting Event' and 'Non-adjusting event'. Adjustments to assets and liabilities are made for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the balance sheet date or because of statutory requirements or because of their special nature. For non-adjusting events, the group may provide a disclosure in the Consolidated financial statements considering the nature of the transaction.

**2.27 Exceptional items**

The Group considers exceptional items to be those which derive from events or transactions which are significant for separate disclosure by virtue of their size or incidence in order for the user to obtain a proper understanding of the Group's financial performance. These items include, but are not limited to, impairment charges, restructuring costs and profits and losses on disposal of subsidiaries, contingent consideration and other one-off items which meet this definition. To provide a better understanding of the underlying results of the period, exceptional items are reported separately in the Consolidated Statement of Profit and Loss.

**2.28 Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As of 31 March 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group that has not been applied.

**4 Goodwill and other intangible assets (Contd..)****Impairment of cash generating units**

The Group evaluates for impairment if cash generating units (CGUs) have identified impairment triggers. Impairment is recognised, when the carrying amount of CGUs including goodwill, exceeds the estimated recoverable amount of CGU. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generating unit (CGU), which benefit from the synergies of the acquisition. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. CGUs which have goodwill allocated to them are tested for impairment at least annually.

During the year ended March 31, 2024 and March 31, 2023 Goodwill acquired through business combinations has been allocated to the following CGU's:

	As at March 31, 2024	As at March 31, 2023
Supply chain and distribution (Refer note 4(i))	3,816.08	-
Out of home consumption (Refer note 4(ii))	3,148.59	3,148.59
Private Brands (Refer note 4(iii))	109.15	109.15
SuprDaily (Refer note 4(iv))	1,226.33	1,226.33
<b>Total</b>	<b>8,300.15</b>	<b>4,484.07</b>
Less: Impaired (Refer note 4(iii), (iv) and 4(vi))	(1,335.48)	(1,226.33)
<b>Net</b>	<b>6,964.67</b>	<b>3,257.74</b>

(i) The recoverable amount of Supply chain and distribution has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 20.10% as at March 31, 2024. Cash flows beyond that five-year period have been extrapolated using a constant five per cent growth rate. This growth rate does not exceed the long-term average growth rate of the market.

(ii) The recoverable amount of out of home consumption has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 20.70% as at March 31, 2024. Cash flows beyond that five-year period have been extrapolated using a constant five per cent growth rate. This growth rate does not exceed the long-term average growth rate of the market.

(iii) During the year ended March 31, 2024, the Group had assessed the carrying value of the investment in the Private Brands considering its restructuring plan to suspend majority of operations except in partial locations in Bangalore with effect from March 2024. Management performed an assessment of the recoverable amount of the CGU based on the future operational plan and projected cashflows, based on the assessment goodwill and other intangible assets have been impaired fully. The recoverable amount of Private Brands has been determined based on the value in use. Value in use has been determined based on future operating plan, projected cash flows, growth rates, economic conditions and trends. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 20.1% as at March 31, 2024. Cash flows beyond that five-year period have been extrapolated using a constant five per cent growth rate. This growth rate does not exceed the long-term average growth rate of the market.

(iv) During the year ended March 31, 2022, the Group had assessed the carrying value of the investment in the subsidiary (SuprDaily) considering its restructuring plan to suspend operations in 5 out of 6 cities with effect from May 2022. Management performed an assessment of the recoverable amount of the CGU based on the future operational plan and projected cashflows, based on the assessment Goodwill has been impaired in full. The recoverable amount of SuprDaily has been determined based on the value in use. Value in use has been determined based on future operating plan, projected cash flows, growth rates, economic conditions and trends. The estimated cash flows for a period of 5 years were developed using internal forecasts, and a discount rate of 24.5%.

(v) The estimated recoverable amount of CGU's other than SuprDaily and Private Brands has exceeded its carrying amount and accordingly, no impairment is recognised.

(vi) An analysis of the sensitivity of the computation to a change in key assumptions (discount rates and long-term average growth rate), based on any reasonable change, did not identify any probable scenario in which the recoverable amount of the Supply chain and distribution and Out of home consumption CGUs would decrease below its carrying amount the year ended March 31, 2024.

**6 Investments (Contd..)**

6.1 During the year ended March 31, 2022, the Group had acquired 5% of shareholding in Urbanpiper Technology Private Limited ("Urbanpiper") for a total consideration of ₹ 373.88 Million. The CCCPs are designated as FVTOCI as they are not held for trading purpose and are not in similar line of business as the Group. Further, disclosing their fair value fluctuation in profit or loss will not reflect the purpose of holding. During the year ended March 31, 2023, the Group has recorded FVTOCI loss in the consolidated statement of profit and loss amounting to ₹ 95.86 Million on account of changes in the fair value of shares (refer note 38). As at March 31, 2024, there is no change in the fair value of the aforesaid Investment and accordingly, no gain/ loss has been recorded.

6.2 During the year ended March 31, 2023, the Group had acquired 1,99,948 Series D CCPS and 10 equity in Roppen Transportation Private Limited ("Rapido") constituting 15.10% on a fully diluted basis for ₹ 9,505.00 Million. Rapido is engaged in providing services as on-demand technology-based transportation aggregator for two-wheeler and four-wheeler vehicles and operates through the mobile application 'Rapido'. The Group basis the shareholders agreement ('SHA') had the right to nominate and appoint 1 (one) Nominee Director in the board of Rapido subject to the terms contained in the SHA and the Articles of Association of Rapido. The Group on date of acquisition has issued an irrevocable waiver letter basis which it has waived its right to appoint a director on an irrevocable and unconditional basis till March 31, 2024 and subsequently, the Group has extended the waiver till 31 December 2025 ("Waiver"). Basis such waiver of rights, the Group concluded that it has no significant influence on Rapido and hence it is not an associate as per Ind AS 28 'Investments in Associates and Joint Ventures' and hence the Group has recognised the investments in Rapido as an investment at FVTOCI. Basis the fair valuation of the aforesaid investment, during the year ended March 31, 2024, the Group has recorded FVTOCI gain in the Consolidated Statement of Profit and Loss amounting to ₹ 931.68 Million (March 31, 2023: Nil) (Refer note 38).

6.3 The Group, as part of its treasury operations, invested in commercial papers aggregating to ₹ 598.15 Million, with 'Infrastructure Leasing and Financial Services Limited and its subsidiary' (IL&FS Group), which were due for maturity on February 15, 2019 amounting to ₹ 368.73 Million and July 11, 2019 amounting to ₹ 229.42 Million, the aforesaid amount and interest there on has not been received when it was due. As a result of increased credit risk in relation to outstanding balance from IL&FS Group and the uncertainty prevailing on IL&FS Group due to the proceedings pending with the NCLT, Management had provided for full amount ₹ 598.15 Million for impairment in the value of commercial papers during the year ended March 31, 2019.

\* The Group maintains online payments received from customers in a separate account. For the previous year ended March 31, 2023: ₹ 2,125.17 million, was not recorded in the cash and bank in the financial statements, as these are collected on behalf of restaurant merchants and are not pertaining to the balances of the Group as the money was held in trust by the Group, accordingly the same has been adjusted against amount payable to merchants (Refer note 18).

During the year, pursuant to regulatory clarification and communication from banks, the nodal accounts were converted into a current account and accordingly, the amounts have been classified under "Balance with banks - in current accounts". Accordingly, no balance has been netted off with "Amount payable to merchant".

**Notes to the Consolidated Financial Statements**

(All amounts in ₹ Million, unless otherwise stated)

**30 Earnings per share**

Basic Earnings Per Share and Diluted Earnings Per Share amounts are calculated by dividing the loss for the year attributable to shareholders of the company by the weighted average number of equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted loss per equity share (EPS) computations:

	Year ended March 31, 2024	Year ended March 31, 2023
Face value of equity share (₹)	1.00	1.00
Loss attributable to equity shareholders of the company (₹ in Million) - (A)	(23,502.43)	(41,793.05)
Weighted average number of equity shares outstanding	30,065,685	22,083,392
Weighted average number of compulsorily convertible cumulative preference shares outstanding and vested ESOPs	2,166,228,682	2,140,292,725
<b>Weighted average number of equity shares in calculating basic and diluted EPS - (B)</b>	<b>2,196,294,367</b>	<b>2,162,376,117</b>
<b>Basic and diluted loss per equity share (₹) - (A/B)</b>	<b>(10.70)</b>	<b>(19.33)</b>

**Notes:**

(i). ESOPs outstanding as at March 31, 2024 and March 31, 2023 are anti-dilutive in nature and accordingly have not been considered for the purpose of calculation of EPS.

(ii). The Group has corrected and revised the weighted average number of equity shares considered for calculation of loss per share (Basic and diluted), by giving effect of conversion ratio with respect to compulsorily convertible cumulative preference shares on fully dilutive basis (2,076,814,816) along with vested and exercisable ESOPs (63,477,909) granted till date.

Further, since aforesaid correction does not impact/ change any reported balances of assets, liabilities and equity of the prior period presented, the Group has not restated financial statements during the current year, also refer note 44(b).

Effect of change in mortality rate on DBO (-/+ 10%)	507.41	507.40	484.16	483.91
Impact on defined benefit obligation	0.03%	0.03%	0.00%	-0.05%

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

**33 Employee Stock Option Plan (ESOP)**

The Group has two ESOP schemes namely Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015) and Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021).

The Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015) had been approved by the Board of Directors of the Group at their meeting held on May 26, 2015 and the shareholders of the Group by way of resolution passed at their Extra Ordinary General meeting held on June 14, 2015 for granting of aggregate 17,650 options which were amended from time to time basis vide resolutions passed at the General meetings and further increased to 1,06,201 options vide resolution passed at the Extraordinary General Meeting held till date. These options would vest generally over 4 years from the date of grant based on the vesting conditions as per letter of grant executed between the Group and the employee of the Group. Option vested can be exercised at the time of liquidity event as per the provisions outlined in the Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015). Each option when exercised would be converted into 1,401 fully paid-up equity share of ₹ 1.00 each of the Group but not exceeding 148,787,115 resultant equity shares.

The Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021) had been approved by the Board of Directors of the Group at their meeting held on August 06, 2021 and the shareholders of the Group by way of resolution passed at their Extra Ordinary General meeting held on August 10, 2021 for granting of aggregate 25,370 options which were amended from time to time basis vide resolutions passed at the General meetings and increased to 26,399 options.

Further, shareholders of the Group vide resolution passed at the Extraordinary General Meeting held on March 31, 2023 had approved for "no further grants under ESOP scheme 2021 and the transfer of unissued options being a total of 1,651 options lying in the ESOP scheme 2021 be transferred to ESOP scheme 2015 and any grants that return to the Swiggy ESOP 2021 (formerly known as Bundl ESOP 2021) hereafter on account of lapse or surrender of options automatically be credited to the Swiggy ESOP 2015 (formerly known as Bundl ESOP 2015)." Post approval from the shareholders unissued options lying in pool of ESOP 2021 were transferred to ESOP 2015 resulting into 24,748 options as on March 31, 2023. Each option when exercised would be converted into 1,401 fully paid-up equity share of ₹ 1.00 each of the Group but not exceeding 34,672,509 resultant equity shares.

During the year ended March 31, 2022, the Group issued bonus in the ratio of 1400:1 to all the existing shareholders whose names appear in the register of members of the Group as on December 31, 2021. Hence each option granted under the above schemes would be eligible for 1,401 equity shares. Also for the options granted on or after the bonus issues exercise price has been fixed as ₹ 1,401.00 (fourteen hundred and one).

The following table summarises the movement in stock option granted and weighted average exercise price (WAEPI) during the year:

The expected life of stock options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

During the year ended March 31, 2022, the Company had launched Swiggy Liquidity Program ("SLP" or "Program") to provide liquidity to its eligible employees subject to certain conditions. As per the program the liquidity is being carried out in two rounds i.e. during July, 22 and July, 23. Liquidity price would be fair market value (FMV) at the time of liquidity, facilitated by the Company preferably through a secondary market sale or internal company financed liquidity event. The liquidity event was considered as a modification, considering appropriate assumptions and the fair value on the date of modification of ₹ 1,596.64 Million was recognized as financial liability with a corresponding adjustment to equity during the year ended March 31, 2022.

During the year ended March 31, 2023, the Company had facilitated the first round of liquidity during July, 2022 for the eligible employees, accordingly a cost of ₹ 641.38 Million for 3,363 options pertaining to first round of liquidity scheme and ₹ 1,200.68 Million for 7,299 options pertaining to second round of liquidity scheme has been recognised in the consolidated financial statements. The Group has also facilitated the second round of liquidity in the quarter ended September 2023 for the eligible employees. Accordingly, an amount of ₹ 182.24 Million for 6,283 options on account of actualisation has been recognised as a credit to share based payment expense in the Consolidated Statement of Profit and Loss (Refer note 25).

(c) In December 2023, the company received show cause notices (SCNs) from the GST authorities requiring the Company to show cause why a tax liability of ₹ 3,267.63 Million along with the interest and penalty for the period from July 2020 to March 31, 2022, should not be demanded and recovered. The alleged amount is calculated on the delivery charges collected by the company from the end user on behalf of the delivery partners. The Company is in process of responding to the SCNs. The company, supported by the external independent expert's advice, is of the view that it has a strong case on merits. The Company will continue to monitor developments in this case and address any further proceedings as necessary.

(d) The Group is subject to taxation matters that arise from time to time in the ordinary course of business. Judgment is required in assessing the range of possible outcomes for some of these tax matters, which could change substantially over time as each of the matter progresses depending on experience on actual assessment proceedings by tax authorities and other judicial precedents. Based on its internal assessment supported by external legal counsel views, if any, the Group believes that it will be able to sustain its positions if challenged by the authorities and accordingly no additional provision is required for these matters.

Other than the matter disclosed above, the Group is involved in claims through consumer forum relating to quality of service, Competition Commission of India ("CCI"), writ petition and other arbitral matters that arise from time to time in the ordinary course of business. Some of these demands are disputed by the Group, and matters are presently under arbitration with the consumer forum and other arbitral tribunal. Management is of the view that above matters will not have any material adverse effect on the Group's financial position and results of operations.

**36 Operating Segments**

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker ("CODM"), in deciding how to allocate resources and assessing performance. The Group's chief operating decision maker is the Chief Executive Officer.

The business segments comprises of:

1. Food Delivery
2. Out of home consumption
3. Quick-commerce
4. Supply chain and distribution
5. Platform Innovations

Food delivery business offer on-demand Food Delivery services through a network of restaurant partners and delivery partners, which is available through mobile application and/or website.

Out-of-home Consumption offerings include restaurant dining solutions (that we provide through DineOut) and access to curated outdoor events through SteppinOut.

Quick commerce offer on-demand grocery and a growing array of household items to users through Instamart.

Supply Chain and Distribution offer comprehensive supply chain services to wholesalers, retailers, and fast-moving consumer goods ("FMCG") brands, leveraging our warehousing capabilities. We streamline the value-chain and ensure reliable, fast, and cost-effective order fulfilment for wholesalers, retailers and FMCG companies.

Platform Innovations consists of set of incubators for new service offerings to create more frequent and meaningful touchpoints for our users, this segment includes business verticles such as Private Brands, Swiggy - Genie, Swiggy-Minis, Insanely Good etc.

During the year ended March 31, 2024, the Group realigned its internal reporting system to focus on revised business verticals for tracking its performance and resource allocation decisions. This required the Group to realign its operating segment disclosures with its internal reporting structure. Accordingly, the management has restated the segment information for the corresponding previous financial years in accordance with the reporting requirements of Ind AS 108. Further, as the CODM is no longer reviewing segment assets and liabilities as part of its resource allocation decisions, due to which the Group has discontinued the disclosure of segment assets and liabilities.

**38 Financial Instruments - category and fair value hierarchy (Contd..)****(b) Valuation technique to determine fair value**

38.1 The carrying value of these financial assets and liabilities in the Consolidated Financial Statements are considered to be the same as their fair value, due to their short term nature.

38.2 The carrying value of these financial assets and liabilities in the Consolidated Financial Statements are carried at amortised cost. The fair value of Investments in Non-Convertible Debentures(NCDs)/Bonds for the year ended March 31, 2024 is amounting to ₹9,260.54 Million (March 31, 2023 : ₹9,853.10 Million).

38.3 These accounts are considered to be highly liquid / liquid and the carrying amount of these are considered to be the same as their fair value.

38.4 The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at balance sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

38.5 Lease liabilities are recognised based on the present value of the remaining lease payments.

38.6 The fair values of the unquoted investments in equity instruments have been estimated using one or more of the valuation techniques such as Discounted cash flow method ("DCF"), Comparable companies multiples method ("CCM"), Option pricing backsolve method ("OPM") and Comparable companies transactions multiples method ("CTM").

**(c) Fair value hierarchy**

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted price included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: Inputs for the assets and liabilities that are not based on observable market data (unobservable inputs)

Investments in equity and preference instruments	Option pricing ("OPM")	a) Enterprise value to revenue multiple ("Ranging from 9.39x to 30.42x")  b) Volatility (50%)	A 5% increase in Revenue multiple would have led to approximately ₹ 364.74 Millions gain in the Consolidated Financial Statements.  A 5% decrease in Revenue multiple would have led to approximately ₹ 364.00 Million loss in the Consolidated Financial Statements.  A 5% increase in volatility would have led to approximately ₹ 16.88 Millions gain in the Consolidated Financial Statements.  A 5% decrease in volatility would have led to approximately ₹ 25.31 Million loss in the Consolidated Financial Statements.
<b>As at March 31, 2023</b>			
Investments in equity and preference instruments	Discounted cash flow method ("DCF"), Option pricing backsolve method (OPM)	a) Enterprise value to Revenue multiple (30.42x)  b) Volatility (50%)  c) Weighted Average cost of Capital ("WACC") (16.86%)	A 5% increase in revenue multiple would have led to approximately ₹ 6.87 Million gain in the Consolidated Financial Statements.  A 5% decrease in revenue multiple would have led to approximately ₹ 6.86 Million loss in the Consolidated Financial Statements.  A 5% increase in volatility would have led to approximately ₹ 0.37 Million gain in the Consolidated Financial Statements.  A 5% decrease in volatility would have led to approximately ₹ 0.62 Million loss in the Consolidated Financial Statements.  A 5% increase in WACC would have led to approximately ₹ 834.76 Million loss in the Consolidated Financial Statements.  A 5% decrease in WACC would have led to approximately ₹ 945.81 Million gain in the Consolidated Financial Statements.

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

**39 Financial risk management**

The Group is exposed to various financial risks majorly Credit risk, Liquidity risk and Market risk and Equity price risk. The Group's senior management oversees the management of these risks with an objective to minimise the impact of these risks based on charters and (in) formal policies.

**a. Market risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

The Group's exposure to foreign currency exchange rate risk is very limited, as the Group doesn't have any significant foreign exchange transactions. Further, the Group's investments are primarily in fixed rate interest bearing investments. Accordingly, the Group is not significantly exposed to interest rate risk.

**i Interest rate risk:**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. As at March 31, 2024, the Group's debt obligation includes term loans, overdraft facilities and purchase invoice financing arrangements from the financial institutions. Refer note 16 for further details. The impact of possible change in floating rate on the Group's profitability was not material.

**b. Credit risk**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables and unbilled receivables) and from its treasury activities, including deposits with banks and financial institutions, investments in money market and other financial instruments. Credit risk has always been managed by the Group through credit approvals, established credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit in the normal course of business.

(All amounts in ₹ Million, unless otherwise stated)

**39 Financial risk management (Contd...)**

**i) Trade receivables**

Trade receivables consists of receivables from large number of unrelated restaurant partners and online payment partners, receivables from customers which is in the regular course of B2B sales. The Group's credit risk with regard to receivables from restaurant is reduced by its business model which allows it to offset payables to restaurants against receivables. The Group operates with known online payment partners, these are short term and carried very low credit risk at the reporting date. The Group's trade receivables are non-interest bearing and generally carries credit period of 0 to 60 days. The Group does not hold collateral as security. The details of concentration of revenue are provided in note 36.

As per Ind AS 109, the Group uses the expected credit loss model to assess the impairment loss. In determining the impairment allowance (allowance for doubtful debts), the Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. Refer note 28 for the details on allowances for doubtful debts and advances and note 8 for the outstanding trade receivable balance which is subject to credit risk exposure of the Group.

Outstanding customer receivables are regularly and closely monitored basis the historical trend, the Group provides for any outstanding receivables beyond 180 days which are doubtful, the trade receivables on the respective reporting dates are net off the allowances which is sufficient to cover the entire life time loss of sales recognised including those that are currently less than 180 days outstanding, the total provision of ₹ 773.08 Million (March 31, 2023: ₹ 723.33 Million) consists of both these types of accounts.

**ii) Financial instruments and cash deposits**

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's approved investment policy. Investments of surplus funds are made primarily in liquid mutual fund units, fixed maturity plan securities, fixed deposits, quoted bonds, certificate of deposits, commercial papers etc. Investments of certificate of deposits, zero coupon bonds, commercial papers etc., are made only with approved counterparties and within credit limits. Counterparty credit ratings are reviewed by the Group's Audit Committee on periodic basis.

The Group's maximum exposure to credit risk for the components of the balance sheet is the carrying amounts as illustrated in note 6 and the liquidity table below.

**c. Liquidity risk**

Liquidity risk is the risk of being unable to meet the payment obligations resulting from financial liabilities, which may arise from unavailability of funds. The exposure to liquidity risk is closely monitored on Group level using daily liquidity reports and regular cash forecast reports to ensure adequate distribution. The Group believes that cash and cash equivalents and current investments are sufficient to meet its current requirements, accordingly, no liquidity risk is perceived.

The break up of cash and cash equivalents, deposits and current investments are as follows:

	As at March 31, 2024	As at March 31, 2023
Cash and cash equivalents	8,870.51	8,325.21

**41 Compliance with FDI regulation:**

The Group is not owned and is not controlled by resident Indian citizens. The Group has received foreign direct investment ("FDI") up to ~85% of its paid-up share capital and resident Indian citizens do not have the ability to appoint and remove the majority of the Group's Board of Directors. Accordingly, the Group is required to comply with regulations applicable to Foreign Direct Investments.

FDI is governed by (collectively, "Exchange Control Regulations") (a) the Foreign Exchange Management Act, 1999 (including the rules and regulations made thereunder) ("FEMA"), (b) Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (Notification No. S.O. 3732(E) dated October 17, 2019) as amended from time to time ("NDI Rules") , and (c) the consolidated FDI policy effective from August 28, 2017 and issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry ("DIPP"), as amended and restated from time to time including through various 'Press Notes' ("FDI Policy").

The Group has evaluated the guidance above and has obtained a legal opinion from the external legal counsel to conclude that the Group conducts its businesses under various categories namely 'sale of services through e-commerce' and 'sale of goods through e-commerce' amongst others. Accordingly, the conditions enumerated in Press Note No. 2 (2018 Series) dated December 26, 2018 ("PN2") read with Notification No. FEMA. 20(R) (6)/2019-RB dated January 31, 2019 and Press Note No. 3 (2016 Series) dated March 29, 2016 ("PN3") are not applicable to the Group whilst undertaking business under the 'sale of services through e-commerce' category. Accordingly, the Group has not determined any possible exposure on account of compliance with conditions enumerated under PN2 and PN3. In relation to the business activities relating to 'sale of goods through e-commerce', the Group duly complies with the conditions set forth under the FDI Policy including PN2.
